

Bladder Pain Syndrome/ Interstitial Cystitis

The world leading experts who deal with Interstitial Cystitis / BPS will meet in Rome on a world conference, organized by the International Society for the study of Bladder Pain Syndrome (www.essic.eu), to compare notes on nomenclature, research and therapies. On November 17 an open day is scheduled for doctors and specialists where these top world leaders will do an overview of this disease in terms of diagnosis and therapy. The program starts at 8.30 am and end at 18.00 and includes coffee break and lunch.

More details on the possibilities of participation to this important event will be available on the Essic website (www.essic.eu) from September 30th.
